Data Source: All data are aggregates of the data subgrantees report in the AmeriCorps Progress Reports. State Commissions review subgrantees' reports, and then submit approved information to AmeriCorps through the Grantee Progress Reports (GPR). AmeriCorps programs vary in their start and end dates, and not all programs operate during the same timeframe. During any given year the time period of activity reported is between October 1st through September 30th. Any program activity that may have occurred after September 30, 2005 is not captured in this report.

AmeriCorps State Education Award Usage: 1994-2002¹

Education Award. After successfully completing a term of service, AmeriCorps members who are enrolled in the National Service Trust are eligible to receive an education award. The education award can be used to pay education costs at qualified institutions of higher education or training, or to repay qualified student loans. The award currently is \$4,725 for a year of full-time service, with correspondingly lesser awards for half-time and reduced half-time service. A member has up to seven years after his or her term of service has ended to use the award.

Education Award Usage. Education award usage is generated from eSpan. For education award usage rates, we examined awards in which members had 3 or more years to access the award. This decision was based on evidence that most members use the education award within 3 years of earning it.

Data Source: eSPAN, as of September 14, 2005.

¹ For education award usage rates, we examined awards in which members have had three or more years to access the award. This decision was based on evidence that most members use the education award within three years of earning it.

For this report, we have identified members who served in 1994-1995 through 2001-2002 to examine usage rates for education awards.

1994-1995 through 1997-1998: Members who served in 1994-1995 through 1997-1998 have completed their seven-year education award eligibility period; because the eligibility period for using the education award is completed, we have aggregated the usage rate for these members.

1998-1999 through 2001-2002: Members who served in 1998-1999 through 2001-2002 have at least one year of eligibility left. As former members of these years access their education awards, these data will fluctuate as the awards remain active.

We will continue to track AmeriCorps member education award usage by year, adding an additional year in the “eligibility remaining” portion of the graph. Usage rates may differ from year to year as more earned education award money is withdrawn from members’ Trust accounts. As members end their seven-year period of eligibility they will be added to the “eligibility completed” group.
