

Ways We Can Help

	CAPACITY BUILDING	DIRECT SERVICE: TEAM-BASED	DIRECT SERVICE: GRANT PROGRAMS
Description of Service	AmeriCorps members or Senior Corps volunteers work with organizations to provide community support and organization. Members may coordinate volunteers, but are not actual service providers. For example, members would recruit volunteer tutors rather than tutor children directly.	AmeriCorps members serve in teams to accomplish service projects that range in length from four weeks to 10 months. Projects could include restoring trails, tutoring children, or building homes for low-income residents.	AmeriCorps members or Senior Corps volunteers serve with non-profit organizations and community partners (e.g. Habitat for Humanity, City Year, YouthBuild, Jumpstart, etc.) to address community needs.
Example of Existing Partnership	STEM AmeriCorps members will serve with nonprofits across the country to mobilize STEM professionals to help young people excel in science, technology, engineering, and math.	FEMA Corps is a partnership between the Federal Emergency Management Agency and CNCS. It is a team-based program that places members around the country to provide critical support after disasters and develop the next generation of emergency managers.	School Turnaround AmeriCorps is a partnership between the Department of Education and CNCS that places members with grantee partners at the nation's lowest performing schools where they will work to boost student achievement, attendance, and graduation rates.
