Social Innovation Fund

The Social Innovation Fund (SIF), an initiative enacted under the Edward M. Kennedy Serve America Act, is a new way of doing business for the federal government that stands to yield greater impact on urgent national challenges. The SIF will target millions in public-private funds to expand effective community solutions to social challenges in the areas of: economic opportunity, healthy futures, and youth development and school support.

On July 22, 2010 the Corporation for National and Community Service awarded nearly $50 million in SIF grants to 11 organizations. The grantees have strong track records of identifying and growing high-performing nonprofit organizations and represent the diversity of the social sector. Over the next six months, the SIF grantees will conduct open competitions across the U.S. to find the most promising nonprofit organizations.

Below is a description of the 11 inaugural SIF grantees and the work they will support.
