Program Summary	Serve Washington will leverage the support of parent organizations that sponsor the volunteer centers, investments from private and corporate funders, nonprofit fees, and in-kind contributions to address all three aspects of the purpose of the Volunteer Generation Fund. It will bolster nonprofits that recruit, manage, and support volunteers, particularly in planning and implementing programs that support student success; deploy skilled volunteers to strengthen the capacity of education-related nonprofits, including their ability to engage skill-based volunteers to effectively solve problems; and expand the capacity of Washington's volunteer centers to recruit, manage, support, and retain individuals in high quality volunteer assignments, particularly youth volunteers.
