Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on September 17, 2014. This comment period ended November 17, 2014. Two public comments were received from this Notice.

One commenter suggested engaging state service commissions in the survey planning process to avoid duplicating efforts to collect member experience data. CNCS engages state service commissions on a regular basis.

The second commenter offered the following suggestions.

Survey Question 3a. Public comment: Recommend spelling out the acronyms PSO and CTI. CNCS response: This change was discussed with our working group and with pilot respondents participating in cognitive interviewing, but was found not to be needed. Respondents to whom the acronyms did not apply simply ignored them.

Survey Questions 5a, 5b, and 5c. Public comment: Is it truly the frequency that you're interested in or whether or not the program provided them with the knowledge, skills and abilities to perform those activities? CNCS response: Though we certainly are interested in whether programs are providing members with the training and opportunities needed to develop these skills, we chose to assess frequency of skill usage

Survey Question 6. Public comment: Item a, when referencing co-worker are you referring to a fellow AmeriCorps member or other employees at the service location? CNCS response: Co-worker could refer to any individual in a service or workplace setting.

Survey Question 7. Public comment: Do you want the respondent to answer this based on their AmeriCorps experience or in general? May want to have a lead-in clause similar to question 8. CNCS response: Answers to this survey should be based on the member's AmeriCorps experience.

Question 11: Public comment. Although the question specifically references discussions with friends and family, a member may believe some of the selections within this question are leading them to answer about potential involvement in prohibited activities.

If trying to assess whether or not AmeriCorps has led them to be more civically engaged in the last 12 months, might want to rephrase the introduction statement/question. CNCS response: We have eliminated all questions referencing potentially prohibited activities.

Question 18. Public comment: Item c, may want to add a few examples or a national nonprofit (e.g., Red Cross, City Year, etc.) or change language to ask about affiliation with the legal applicant as not all program operators are nonprofits. CNCS response: Since we did not uncover confusion in our cognitive interviews or qualitative analysis, we decided not to add examples.

Question 19. Public comment: Is it beneficial to add a selection for VISTA members that elect to receive the cash stipend in lieu of an education award? CNCS response: Based on feedback from our cognitive interviews, this response option has been added.

Public comment: The commenter also wondered if CNCS was interested in knowing about how members' benefits (e.g. childcare or healthcare coverage) impacted the service experience or satisfaction. CNCS response: This was not indicated as an area of interest by the working group or other internal stakeholders, so no questions related to benefits will be included in this survey. It is possible that future projects or survey supplements could ask about the impact of member benefits. Public comment: The commenter also suggested that we include a question that could identify the specific states where members served, for use in reporting findings for state offices and commissions. CNCS response: Rather than include another question in the survey, we are exploring mechanisms to connect exit survey data to existing data on member service locations.

Description: CNCS is seeking approval of AmeriCorps Member Exit Questionnaire, CNCS seeks to renew the current information collection. The questionnaire submitted for clearance is a combination of new and existing content from the previously cleared exit questionnaire. The new content reflects changing agency and program priorities. In addition, some approved questions have been edited to make them easier to understand and to provide more useful information for programs. The new

questions include data points on problem-solving and cross-cultural communication skills. The information collection will otherwise be used in the same manner as the existing application. CNCS also seeks to continue using the current application until the revised application is approved by OMB.
