A. PROGRAM DESCRIPTION

A.1. Purpose of AmeriCorps Seniors' Senior Companion Program Funding

The mission of AmeriCorps is to improve lives, strengthen communities, and foster civic engagement through service and volunteering. Through AmeriCorps, AmeriCorps Seniors, and the Volunteer Generation Fund, AmeriCorps has helped to engage millions of citizens in meeting community and national challenges through service and volunteer action.

Established in 1974, the AmeriCorps Seniors' Senior Companion Program (SCP) engages adults age 55 and over to provide companionship and support to other adults in need of extra assistance to remain at home or in the community for as long as possible. AmeriCorps Seniors' Senior Companion volunteers serve an average of 20 hours per week, with most of the volunteer service taking place in the homes of their clients. Among other activities, they provide companionship to ease loneliness and social isolation, assist with transportation and light chores, help to serve as eyes and ears to professionals who can intervene in the case of medical or other deterioration on the part of the clients, and give support to informal caregivers. While serving, AmeriCorps Seniors volunteers improve their own lives by staying active and civically engaged.

SCP Volunteers

- Volunteers under 200% of poverty line may receive stipend
- Stipend= \$3.00/hour
- Other Cost Reimbursements can include:
 - Supplemental Insurance
 - Meals
 - Transportation
 - Recognition
 - Physicals
 - Other Costs

§2551.43 What income guidelines govern eligibility to serve as a stipended Senior Companion?

(a) To receive a stipend, a Senior Companion may not have an annual income from all sources, after deducting allowable medical expenses, which exceeds the program's income eligibility guideline for the State in which he or she resides. The income eligibility guideline for each State is 200 percent of the poverty line, as set forth in 42 U.S.C. 9902 (2).

(b) For applicants to become stipended Senior Companions, annual income is projected for the following 12 months, based on income at the time of application. For serving stipended Senior Companions, annual income is counted for the past 12 months. Annual income includes the applicant or enrollee's income and that of his/her spouse, if the spouse lives in the same residence.

(c) Allowable medical expenses are annual out-of-pocket medical expenses for health insurance premiums, health care services, and medications provided to the applicant, enrollee, or spouse which were not and will not be paid by Medicare, Medicaid, other insurance, or other third party payor, and which do not exceed 50 percent of the applicable income guideline.

(d) Applicants whose income is not more than 100 percent of the poverty line shall be given special consideration for enrollment.

(e) Once enrolled, a Senior Companion shall remain eligible to serve and to receive a stipend so long as his or her income, does not exceed the applicable income eligibility guideline by 20 percent.

§2551.71 What requirements govern the assignment of Senior Companions?

(a) Senior Companion assignments shall provide for Senior Companions to give direct services to one or more eligible adults that:

- (1) Result in person-to-person supportive relationships with each client served.
- (2) Support the achievement and maintenance of the highest level of independent living for their clients.
- (3) Are meaningful to the Senior Companion.
- (4) Are supported by appropriate orientation, training, and supervision.

(b) Senior Companions shall not provide services such as those performed by medical personnel, services to large numbers of clients, custodial services, administrative support services, or other services that would detract from their assignment.

WHY MEASURE PERFORMANCE?

Why Measure Performance?

- Accountability
- Improvement
- Replication or Adaptation
- Communication

National Performance Measures

- A uniform set of measurements used across FGP, AmeriCorps Seniors, and AmeriCorps
- Allows you to measure and assess your effectiveness, communicate it to AmeriCorps and others
- Allows AmeriCorps to tell a unified story about the impact of FGP nationwide and continue to improve our performance

NATIONAL PERFORMANCE MEASURE WORK PLAN:

A workplan that results in an output and an outcome specified in AmeriCorps National Performance Measures (Appendix B to the NOFO)

Community Need:

Output	Output Instrument	Service Activity (each selected will generate a separate work plan)	# of Unduplicated Volunteers	# of Total Volunteers	# of Volunteer Stations	Output Target	Outcome	Outcome Instrument	Outcome Target

Total number of unduplicated volunteers in National Performance Measure Work Plans: _____
 Update this as you complete work plans to reflect the cumulative number of unduplicated volunteers programmed into National Performance Measure Work Plans. For example, if this is the first work plan I have completed, and I have included 10 Unduplicated Volunteers in Column D, the value would be 10. If this is my second, and I have included 10 Unduplicated Volunteers in Column D in each work plan, it would be 20, and so on.

Appendix B

Healthy Futures Focus Area

Focus Area Notes:

- These performance measures are intended to measure the impact of activities that meet health needs within communities including access to care, aging in place, and addressing childhood obesity.
- These activities must be carried out by National Service Participants or by volunteers directly recruited and/or supported by National Service Participants.
- All individuals counted under these measures must be program beneficiaries, not National Service Participants.

Applicants that select output H4A may select outcome H9A, H14, or H15A.

H4A (output)	Number of individuals served
Definition of Key Terms	Individuals: recipients of AmeriCorps-supported services related to improving health-related outcomes Served: substantive engagement of individuals with a specific health-related goal in mind. Cannot consist solely of mass dissemination of information such as email blasts, social media posts, or distributing pamphlets.
How to Measure/Collect Data	Tracking mechanism that ensures an unduplicated count of individuals who have received services

H9A (outcome)	Number of individuals who report having increase social support or improved capacity for independent living
Definition of Key Terms	Individuals: those reported in H4A or V1, V7A, V8
How to Measure/Collect Data	Survey, interview, caseworker assessment, or other instrument capable of measuring changes in social support or perceived social support and/or independent living capacity at the individual beneficiary level. When possible, pre-post assessments should be utilized. AmeriCorps is providing a mandatory survey instrument for the AmeriCorps Seniors Senior Companion Program and recommends its use for AmeriCorps Seniors RSVP: Senior Corps Independent Living Survey .
