AmeriCorps Performance Measures

CNCS' Performance Measurement framework provides a common focal point for CNCS' work across all programs and initiatives. CNCS has a focused set of agency-wide Priority Measures derived from the 2011-2015 Strategic Plan. Every CNCS Program will contribute to the Priority Measures. There are also specific grantee/sponsor measures that roll up into the Priority Measures, which you can see in the Priority Measures chart.

See how your program measures fit in with the 16 Agency-Wide Performance Measures.

AmeriCorps Performance Measures

CNCs' Performance Measurement framework provides a common focal point for CNCs' work across all programs and initiatives. CNCs has a focused set of agency-wide Priority Measures derived from the 2011-2015 Strategic Plan. Every CNCs Program will contribute to the Priority Measures. There are also specific grantee/sponsor measures that roll up into the Priority Measures, which you can see in the [Priority Measures chart](#).

See how your program measures fit in with the [16 Agency-Wide Performance Measures](#).

Glossary

Agency-Wide Priority Measure: One of a set of 16 National Performance Measures aligned with the 2011-2015 Strategic Plan that allows us to assess the individual and collective results of programs, continue to enhance program effectiveness, and tell the national story of service.

Capacity Building: A set of activities that expand the scale, reach, efficiency, or effectiveness of programs and organizations. Activities may also leverage resources for programs and/or organizations. For example, capacity building activities may expand services, enhance delivery of services, or generate additional resources. These activities achieve lasting positive outcomes for the beneficiary populations served by CNCS-supported organizations.

Complementary Program Measure: A standardized National Performance Measure that allows us to measure results of important programmatic activities not collected in the Agency-Wide Priority Measures, and also to assess the individual and collective results of programs and continue to enhance program effectiveness.
