

Transition Summary

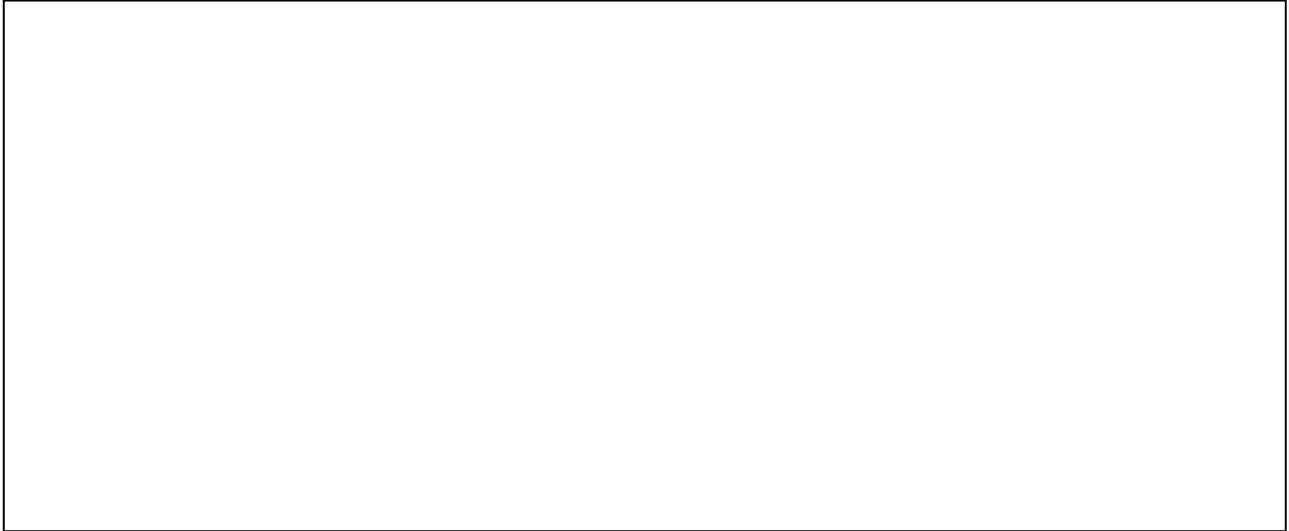

Introduction

The purpose of this outline is to assist AmeriCorps State and National grantees with their efforts to ensure program continuity during times of temporary and permanent staff transitions. This Transition Summary is an example and is not inclusive of all the categories of information that an organization may choose to provide in a transition document. It serves as a starting point for AmeriCorps commission, national direct, and Tribal grantee staff to develop and formalize their transition processes. The document is intentionally broad in nature and should be tailored by type, size, and complexity of each organization. In addition, it can also be tailored by staff position within each organization if you choose to create a separate document for each staff role. The main takeaway from this resource is the need for each grantee to have a Transition Summary to serve as a “roadmap” for new staff to navigate their new role(s) and responsibilities.
