

Environmental Stewardship

Focus Area Goal

Provide direct services that contribute to increased energy and water efficiency, renewable energy use, or improving at-risk ecosystems, and support increased citizen behavioral change leading to increased efficiency, renewable energy use, and ecosystem improvements particularly for economically disadvantaged households and economically disadvantaged communities.

Environmental Stewardship

Focus Area Description

- Decrease energy and water consumption
- Improve at-risk ecosystems
- Increase behavioral changes that lead directly to decreased energy and water consumption or improve at-risk ecosystems
- Increase green training opportunities that may lead to decreased energy and water consumption or improve at-risk ecosystems

Environmental Stewardship

Priority Measures

- EN4: Number of acres of national parks, state parks, city parks, county parks, or other public and tribal lands that are improved
- EN5: Number of miles of trails or waterways (owned/maintained by national, state, county, city or tribal governments) that are improved and/or created

Questions/Issues in Environmental Stewardship

- EN4 and EN5 have been narrowed to land/waterways improved and no longer include land/waterways cleaned. There is also significant new guidance regarding what counts as improvement.
