Planning a Life After AmeriCorps Training Survey

The survey below would typically be sent to members well in advance of planning a Life After AmeriCorps conference or series of workshops. The data collected will assist conference organizers in deciding on topics and identifying the types of trainers or speakers to invite. The survey information will also help speakers know who their audience is, so they can adjust their presentations accordingly. Lastly, members should feel more vested in attending the conference because they’ve had a chance to weigh in on the topics.
