

# Videoconference Training

**Marissa:** It's just an opportunity for people to continue to report to me and to each other, and maintain that connection, which is so important. It's something that I don't think we could have done because of travel and everything; to have people come to one site would just be really expensive, and we've found that this is just another opportunity for them to grow and to have those opportunities but not have to spend as much money to get there.
