

Nonprofit Subgrantees in Pennsylvania

Program HQ Location	Nonprofit Subgrantee Name <i>Intermediary</i>	Description
Philadelphia, PA	Action AIDS AIDS United	ActionAIDS, a Philadelphia-based HIV/AIDS service organization, proposes to implement an intensive case management program designed to increase the rate of retention in health care for individuals who have been recently released from the Philadelphia Prison System. ActionAIDS seeks to address retention in care issues for those clients who, because of poverty, homelessness, and behavioral health issues, are likely to be lost to care. ActionAIDS will be joined in this program by three other nonprofit service providers that will collaborate in the program development as well as the delivery of the housing and behavioral health services needed by these clients. The results of this program will have a potentially transformative impact not only on our delivery of services to recently incarcerated clients, but on services to other clients who have mental health or drug and alcohol issues and who lack stable, affordable housing. The estimated number of persons to be served annually is between 85-100.
